

## WES on the Renewable UK 2011

Launching WES20-70kW and WES18-100kW

WES had a great presence on the RenewableUK conference in Manchester !!!!!!!  
The three day event in Manchester was a success and during the show WES introduced two new Wind Turbine Models to serve our customers even better.

The introduction of the **WES 20/70 (70kW)** and the **WES 18/100 (100kW)** was very much appreciated by our customers and dealers.
